PROFESSIONAL SUMMARY

Third-year B.Sc. (Hons) Data Science undergraduate at Sabaragamuwa University of Sri Lanka, with hands-on experience in machine learning, predictive analytics, NLP, and business intelligence. Skilled in Python, SQL, Scikit-learn, and Power BI, with practical experience developing end-to-end machine learning pipelines, financial risk models, and interactive analytical dashboards. Strong analytical and problem-solving skills, supported by academic projects, teamwork, and student leadership. Seeking an internship in Data Science, Data Analytics, AI/ML, or Data Engineering to contribute to real-world, data-driven solutions.

EDUCATION

B.Sc. (Hons) in Data Science | Sabaragamuwa University of Sri Lanka *2024 – 2028*
Diploma in Information Technology | SIBA Campus *2021 – 2022*
G.C.E. Advanced Level Examination (Physical Science Stream) | Poramadulla Central College *2022*

TECHNICAL SKILLS

Programming Languages:
- Python, SQL, Java, PHP, JavaScript, MATLAB

Data Science, Machine Learning & Analytics:
- Pandas, NumPy, Scikit-learn, Power BI, DAX, Matplotlib, Seaborn, EDA, Feature Engineering, Predictive Modeling, NLP, Time Series Analysis.

Databases & Development:
- MySQL, Laravel, Django, React, HTML, CSS

Tools & Platforms:
- Git, GitHub, Jupyter Notebook, Google Colab, VS Code, Streamlit, Gradio

SOFT SKILLS

Soft Skills:
- Analytical Thinking, Problem-Solving, Leadership, Team Collaboration, Effective Communication, Creativity, Adaptability, Time Management, Attention to Detail.

Spoken Languages:
- Sinhala (Native), English (Intermediate).

SELECTED TECHNICAL PROJECTS

End-to-End Credit Risk Scoring, Probability Calibration & Financial Loss System
- Developed an end-to-end credit risk prediction pipeline using 30,000 real-world credit card records, incorporating data preprocessing, XGBoost modeling, probability calibration, and risk classification.
- Built an interactive Streamlit application to assess default probabilities, categorize customer risk, and estimate potential financial losses for portfolio-level risk analysis.
- **Tech Stack:** Python, XGBoost, Scikit-learn, Pandas, Streamlit

Financial News Sentiment Analysis
- Developed an NLP classification pipeline to analyze financial news sentiment using 3,447 labeled sentences, comparing multiple machine learning algorithms.
- Achieved 82.90% classification accuracy with Linear SVM and developed an interactive Gradio application for real-time sentiment prediction.
- **Tech Stack:** Python, NLP, TF-IDF, Scikit-learn, Linear SVM, Gradio

Bank Customer Churn Prediction
- Built a machine learning pipeline to predict customer churn using approximately 10,000 banking records, including data preprocessing, feature engineering, and model evaluation.
- Compared classification algorithms and analyzed customer-related factors to support data-driven retention decisions.
- **Tech Stack:** Python, Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn

Climate Data Analysis & Interactive Power BI Dashboard
- Designed interactive Power BI dashboards to analyze Sri Lankan weather patterns across multiple cities using historical climate data from 2010–2023.
- Developed DAX measures, time-based comparisons, and regional visualizations to identify temperature trends, rainfall patterns, and seasonal variations.
- **Tech Stack:** Power BI, Data Modeling, DAX, Data Visualization

Apple Stock Price Forecasting
- Applied ARIMA and SARIMA models to historical Apple stock prices, incorporating stationarity testing, time-series analysis, and forecasting evaluation using RMSE and AIC.
- **Tech Stack:** Python, Pandas, Statsmodels, ARIMA, SARIMA

LivManagement – Apartment Maintenance Management System
- Developed a database-driven apartment maintenance platform featuring role-based dashboards, maintenance request tracking, repair task assignment, and centralized service management.
- **Tech Stack:** Laravel, PHP, MySQL, JavaScript, HTML, CSS

VOLUNTEERING

- STEMUP Volunteer / Educator - STEMUP Educational Foundation
- Rotaract Club Volunteer - Rotaract Club of Sabaragamuwa University of Sri Lanka
- IEEE Volunteer - IEEE Student Branch, Sabaragamuwa University of Sri Lanka

ACHIEVEMENTS

- **InspiHER V4.0 - Hackathon -Top 10 Finalist:** Selected among the Top 10 teams in InspiHER V4.0, demonstrating skills in problem-solving, innovation, teamwork, and technology development.
- **DataStorm 7.0 - Data Science Competition -Top 30 Finalist:** Selected among the Top 30 teams in DataStorm 7.0, applying data science, analytical thinking, and problemsolving skills to a real-world challenge.

CERTIFICATES

- Google AI Essentials Specialization - Coursera, 2025
